Subject: Action/ Campaign corro update - LAE [SEC=UNCLASSIFIED]

Just confirming that we have been asked to hold responses to any live animal campaign corro at present. We will be advised when responses can commence. Some further changes to content of the standard words may be needed as a result of government deliberations.

Dr Kelly is also receiving campaign mail and DLO Kelly is working with Jemma to coordinate between the offices.

- At this stage Dr Kelly is retaining campaign corro that is tailored and from his electorate. Other email correspondence is being forwarded to Minister Ludwig's email and will be picked up in the work we are doing with the office.
