**Approval by the Delegate for Alternative Structural Requirements
on a Registered Vessel**

(Approval granted under Schedule 3, Part 2, subclause 22.1 of the Export Control (Fish and Fish Products) Orders 2005)

I,, as Delegate to the Secretary to the Department of Agriculture, Fisheries and Forestry am satisfied that it would be impracticable for the nominated registered fishing vessel to comply with the requirement; and non compliance with the requirement does not jeopardise the fitness for human consumption of fish prepared on the registered fishing vessel named in the application.

Therefore, under **Schedule 3, Part 2, subclause 22.1 of the Export Control (Fish and Fish Products) Orders 2005** specify that the following subclauses of the Orders, *[circle appropriate clause(s)]*

- (a) clause 13.1
- clause 13.2
- clause 13.3

- (b) clause 14.1
- clause 14.2
- clause 14.3
- clause 14.4

- (c) subparagraph 16.1 (c) (ii)

do not apply to AQIS registered fishing vessel FV Est No

Signeddated this day of 20.....

Delegate to the Secretary to the Department of Agriculture, Fisheries and Forestry

(Please note: Under Schedule 3, Part 2, subclause 22.3 of the Export Control (Fish and Fish Products) Orders 2005 the Secretary by notice in writing to the occupier of the registered fishing vessel named above may amend or revoke this notice)
