## **ANIMAL BIOSECURITY POLICY MEMORANDUM 2002/17**

### **IMPORT RISK ANALYSIS: NON-DOMESTIC FELIDAE**

#### **ADOPTION OF NEW POLICY**

This Animal Biosecurity Policy Memorandum (ABPM) advises stakeholders of the adoption of a new policy for the importation of non-domestic felidae.

ABPM 2002/08 of 22 March 2002 provided finalised quarantine requirements for the importation of non-domestic felidae. Following announcement of the final conditions, there was a 30-day period where stakeholders had the opportunity to appeal against the process under which the import risk analysis was conducted.

No appeals were received from stakeholders and, as a result, the conditions attached to ABPM 2002/08 will be adopted today, 29 April 2002.

Thank you for your assistance with the development of this import policy, particularly those stakeholders who responded to our requests for comments. Please do not hesitate to contact this office should you require any further information on this matter.
