

Vessel Particulars

Vessel Name: _____ CallSign: _____
IMO/Lloyd's Number: _____ Visit Date: ____ / ____ / ____

Statement made by Master of vessel identified above

To AQIS in the Port of _____ Date of Arrival: ____ / ____ / ____

SECTION 1 - Cleaning / disinfection

Treatment	COMMENCED		COMPLETED	
	Date	Time	Date	Time
1. General Cleaning	/ /	: :	/ /	: :
2. Disinfectant Applied	/ /	: :	/ /	: :
3. Fresh Water Wash	/ /	: :	/ /	: :

Disinfectant applied (provide details below in A, B and C)

(A) Chemical used	(B) Concentration	(C) Quantity

- Note:**
- (a) Prior to entering Australian waters, every livestock vessel is required to be thoroughly cleansed. The vessel is then disinfected with a 4% (weight = volume in fresh water) soda ash solution applied with a high-pressure applicator to run off stage. The solution is to be applied to all surfaces in livestock holding areas. A minimum period of 30 minutes must elapse before washing down with water.
 - (b) Disinfection must be completed prior to the commencement of disinsection.
 - (c) Sufficient stocks of disinfectant must be held with a minimum of enough for another voyage.

SECTION 2 – Residual disinsection - Permethrin

1. Insecticide and concentration applied:	
2. Date and time commenced.	/ / @ : hrs
3. Date and time completed.	/ / @ : hrs

- Note:**
- (a) Applied by low-pressure applicator to at least 10% of the surfaces of open deck pennage areas, crew quarters, recreation areas, dining areas, and any areas unlikely to be adequately treated by the knock down insecticide.
 - (b) Protective clothing should be used as per the recommendations of the manufacturer.

SECTION 3 – Knock down disinsection – Pestigas-P and/or Insectigas-D

1. Insecticide applied	
2. Amount applied	
3. Date & time commenced / proposed	/ / @ : hrs
4. Date & time completed / proposed	/ / @ : hrs
5. Cylinders applied (Serial Numbers)	
6. Cylinders spare (Serial Numbers)	
7. Spray gun nozzle Number	

- Note:**
- (a) Dose rate for vestiges/insectigas is 200gms/300 cubic metres at a rate of 3 grams per second at 800psi.
 - (b) The gas must be applied with a recommended applicator and nozzle size, SS850033 or SS650033 or Tjet730023. A spare applicator and nozzle must be carried by all vessels. The gas must be applied by slowly walking along the access ways, directing the vapour upwards towards the ceiling. The application must be at a rate that enables gas to be applied to all enclosed pennage areas at the required concentration.
 - (c) Knockdown insecticide must be applied within 2 to 48 hours prior to entering Australian waters. After application, enclosed deck areas must remain sealed until permission is granted by AQIS to ventilate the area.
 - (d) Protective clothing should be used as per the recommendations of the manufacturer.

SECTION 4 - Insectocutors

Date and time deactivated last voyage	/ / @ : hrs
Date and time activated current voyage	/ / @ : hrs

Note:

(a) At least one insectocutor per open deck.

(b) Insectocutors to have a light intensity of at least 160 watts UV.

(c) Insectocutor trays to be activated 48 hours prior to arrival at an Australian port and remain activated until 24 hours after departure. Insects must be collected when insectocutors are deactivated, stored in vials and supplied to AQIS upon the returning visit.

SECTION 5 - Fodder

Does the vessel have any fodder on board?	YES <input type="checkbox"/> OR NO <input type="checkbox"/>	If YES, is the fodder of Australian origin?	YES <input type="checkbox"/> OR NO <input type="checkbox"/>
---	---	---	---

Note:

(a) Fodder of Australian origin if stored above decks must be securely covered and if stored below decks may be uncovered. Fodder of other than Australian origin must be stored securely covered below decks.

SECTION 6 – Authority for persons to board

I hereby request that the following persons be allowed to board the vessel prior to AQIS clearance being granted

Name	Position / Title / Responsibility

SECTION 7 – Application for wharf side clearance (optional section to complete)

Has this vessel only carried animals of Australian or New Zealand origin on the previous voyage prior to this date?

YES OR NO If **No**, wharf side clearance of the above vessel is **not** permitted by AQIS.

If **Yes**, I _____ being the Master of the vessel,
(Master's printed name in full)

here by state that the vessel described above has only carried animals of Australian or New Zealand origin on the previous voyage prior to this date and request wharf side clearance.

Signature of Master/Owner _____
(Delete whichever is inapplicable)

Statement by Master:

I _____ being the Master of the vessel,
(Print Master's name in full)

here by state that disinfection and disinsection procedures have been undertaken and completed as described in Sections 1, 2, 3 and 4 above and that the information that I have stated above is true and correct.

Statement made at sea this _____ day of _____ 20 _____.

Signature of Master/Owner: _____
(Delete whichever is inapplicable)
