Application for Approval to Purchase Females for Breeding Purposes from a Non Accredited Property

1. PIC (Property Identification Code or tail tag number) of the farm seeking approval:

[Empty text box for PIC]

2. Name and address of the property:

Name:
State Postcode

3. Name and contact details of the Manager of the Farm:

Name:
Managers postal address:
State Postcode
Ph: ()
*Mobile:
*Fax: ()
*Email:

*optional

4. Number of females intended to be purchased: [Empty text box]

5. Have you been audited in the past 12 months?

Yes No

I apply for approval to purchase breeding females from a non accredited property. I confirm that I understand the cattle I purchase must be identified with National Livestock Identification System (NLIS) tags and verified as Hormonal Growth Promotant (HGP) free. I have read and understood the accompanying explanatory notes.

EXPLANATORY NOTES

These explanatory notes should be read in conjunction with the EU Rules

EU accredited properties may only receive breeding females from a non accredited property with the approval of the Secretary of the Department of Agriculture, Fisheries and Forestry. Non-EU breeding females remain in the system as not eligible for the EU but their offspring will be eligible.

The cattle must have been born and bred on the farm of origin, be NLIS identified on that property, and attested to be HGP free. You may purchase cows, heifers or pregnant females. Cows with calves at foot are not permitted.

Once approved, the purchased cattle must be identified on the NLIS database as not EU eligible. The transfer must be notified to the NLIS database in the usual way and a list of the animals Radio Frequency Identification Device (RFID) numbers must be sent to AQIS.

Applications may be faxed to us on 02 6272 5442 or posted to the EUCAS Coordinator, GPO Box 858, Canberra ACT 2601. If you have any questions about purchasing breeding females or the EUCAS rules in general, please contact our helpline on 1800 305 544 between 8am-4pm Monday to Friday or email eucas@aqis.gov.au
