

KOREA, REPUBLIC OF

Date of issue	26 Feb 10
EXDOC country code	KR
Additional Requirements and Information	<p>Korea does not allow entry of product containing gelatine from Albania, Austria, Belgium, Bosnia and Herzegovina, Bulgaria, Canada, Croatia, Czech Republic, Denmark, Finland, France, Germany, Greece, Hungary, Ireland, Israel, Italy, Japan, Liechtenstein, Luxembourg, Former Yugoslav Republic of Macedonia, The Netherlands, Norway, Poland, Portugal, Romania, Slovak Republic, Slovenia, Spain, Sweden, Switzerland, United Kingdom or Federal Republic of Yugoslavia.</p> <p>The following should be included in the Exporter Declaration, either:</p> <ol style="list-style-type: none">1. "Product to be exported contains no gelatine." (This product will be provided with endorsement 1947, 1948, 1949, 1950 or 1951 depending on the product type)2. "Product in lines XXX and XXX contains gelatine of bovine origin not sourced from the countries included in Korean endorsements 3086 and 3087." (This product will be provided with endorsement 3086 or 3087)3. "Product in lines XXX and XXX contains gelatine of porcine origin." (This product will be provided with endorsement 3088 or 3089) <p>The ZD035 must be signed on or before the date of departure. If a replacement Health Certificate is issued after departure the "in lieu of" clause on the replacement Health Certificate should reference the Health Certificate issued on or before departure.</p> <p>Auditing is required for non prescribed goods if optional endorsement 1947 is provided to verify "The above mentioned product has been produced from milk with a pH lower than 7, which has been pasteurised for not less than 15 seconds at a temperature of not less than 72 degrees Celsius or equivalent." Export registered establishments will be required to demonstrate that the product was produced from milk with a pH lower than 7 and that it was pasteurised for not less than 15 seconds at a temperature of not less than 72 degrees Celsius or equivalent and AQIS will require a verification statement from the inspecting officer.</p> <p>Auditing is required if endorsements 1947, 1948, 1949, 1950 or 1951 are provided to verify that the country origin statement is able to be substantiated.</p>

	<p>Korean authorities require that all liquid milk (including UHT milk) must be labelled with the manufacturing date (not in code) and the use-by date. This will be subject to audit.</p> <p>Details of importer, distributor, exporter and manufacturer are required on product labels. If the exporter and manufacturer are the same then the information need only be shown once, likewise with the importer and distributor.</p> <p>The country of origin is required on all labels, including inner wrappers. This is a requirement of the <i>Export Control (Milk and Milk Products) Orders 2005</i>. Please be aware that the Korean authorities may inspect labelling for compliance.</p> <p>The Korea Food and Drug Administration (KFDA) are in the process of establishing a “Pre-confirmation Based Registration System of Import Foods”. An expression of interest can be given to KFDA from long established businesses that have a proven track record of exporting processed food to Korea. Establishments interested in participating in the proposed system will be required to cover the costs associated with the requirements of the system including audits by KFDA. Further queries on this scheme can be directed to Slava Zeman – AQIS Processed Foods Policy Section Canberra ph 02 6272 5027. Further information is in Dairy Industry Notice 2007 – 04 issued on 9/11/07.</p> <p>Cheese should be free of <i>Colstridium perfringens</i>. Exporters may test the product in Australia and provide analytical certificates to the Korean import authorities or the product may be tested randomly on arrival in Korea.</p> <p>Korea requires trans fat labelling of all food products containing more than 0.2 grams per serving of trans fatty acids.</p> <p>Korean authorities have confirmed that health certificates for dairy products must include container and seal numbers. This requirement applies to both airfreight and seafreight.</p>
<p>Establishment listing requirements</p>	<p>Not applicable</p>
<p>Exporter Declaration requirements</p> <ul style="list-style-type: none"> • For exports of all prescribed edible product 	<p>Please include a tick in the “Declaration of Compliance” and “Info True and Complete” boxes. If the RFP contains imported product please include a tick in the “Imported Product Flag” box and advise in the email the nature of the imported dairy ingredient including percentage in the product and country of origin.</p>

<ul style="list-style-type: none"> • Specific country requirements 	See above regarding gelatine content
Substantiation requirements	Declaration of Compliance Transfer documentation See above regarding heat treatment and country of origin
Transit Certification Requirements	Milk and milk products transiting the European Union or the United States may require transit documentation. These certificates are available as additional certificates through the EXDOC system. If the product is transiting the United States, standard certification is required and the exporter should contact the DRU for advice on how this certification may be issued. If the product is transiting a European Union member state, see the particular European Union member state regarding the certificate template to select.
Certification Requirements	
1. Edible Product	
EXDOC certification available for milk and milk products for human consumption	ZD035 DAIRY HEALTH CERTIFICATE
Default endorsement for UHT cream and UHT products not containing gelatine	<p>1948 - DAIRY - KOREA OIE diseases, pH and UHT heat treatment statement</p> <p>The above-mentioned product has been produced from milk which was derived from animals that were not under quarantine restrictions due to OIE List A diseases. The above-mentioned product has been produced from milk with a pH lower than 7, which has been sterilised or ultra heat treated for not less than 1 second at a temperature of not less than 132 degrees Celsius or equivalent.</p> <p>The above products have not been produced using products derived from ruminant animals, meat-and-bone meal, meat meal, bone meal, dried plasma and other blood products, hydrolysed protein, hoof meal, horn meal, poultry offal meal, feather meal, dry greaves, fishmeal, dicalcium phosphate, gelatine and their mixtures (feed, feed additives and premixtures containing the listed products) from the following countries : Albania, Austria, Belgium, Bosnia and Herzegovina, Bulgaria, Canada, Croatia, Czech Republic, Denmark, Finland, France, Germany, Greece, Hungary, Ireland, Israel, Italy, Japan, Liechtenstein, Luxembourg, Former Yugoslav Republic of Macedonia, The Netherlands, Norway, Poland, Portugal, Romania, Slovak Republic, Slovenia, Spain, Sweden, Switzerland, the United Kingdom, the United States of America and the Federal Republic of Yugoslavia.</p>
Optional endorsement for UHT cream and UHT products containing bovine	3086 - Korea bovine gelatine, OIE diseases, pH and UHT heat treatment statement

<p>gelatine</p>	<p>The above-mentioned product has been produced from milk which was derived from animals that were not under quarantine restrictions due to OIE List A diseases. The above-mentioned product has been produced from milk with a pH lower than 7, which has been sterilised or ultra heat treated for not less than 1 second at a temperature of not less than 132 degrees Celsius or equivalent.</p> <p>The gelatine in this product has been produced from bovine. The above products have not been produced using products derived from ruminant animals, meat-and-bone meal, meat meal, bone meal, dried plasma and other blood products, hydrolysed protein, hoof meal, horn meal, poultry offal meal, feather meal, dry greaves, fishmeal, dicalcium phosphate, gelatine and their mixtures (feed, feed additives and premixtures containing the listed products) from the following countries : Albania, Austria, Belgium, Bosnia and Herzegovina, Bulgaria, Canada, Croatia, Czech Republic, Denmark, Finland, France, Germany, Greece, Hungary, Ireland, Israel, Italy, Japan, Liechtenstein, Luxembourg, Former Yugoslav Republic of Macedonia, The Netherlands, Norway, Poland, Portugal, Romania, Slovak Republic, Slovenia, Spain, Sweden, Switzerland, the United Kingdom, the United States of America and the Federal Republic of Yugoslavia.</p>
