Transit Certification Requirements	Milk and milk products transiting the European Union or the United States may require transit documentation. For product transiting the European Union via seafreight a DS054 certificate is provided and for product transiting the European Union via airfreight a DA054 certificate is provided. These certificates are available as additional certificates through the EXDOC system and are required to be signed by AQIS officers in a different colour ink to that of the printing of the certificate. If the product is transiting the United States standard certification is required and the exporter should contact the DRU for advice on how this certification may be issued.
Certification Requirements	
1. Edible Product	
EXDOC certification available for milk and milk products for human consumption	ZD035 DAIRY HEALTH CERTIFICATE
Default endorsement available through EXDOC for UHT milk products and UHT cream products	<p>351 - DAIRY - Lesotho and Swaziland UHT - OIE List A and heat treatment at 145 degrees Celsius for 1 second</p> <p>The above mentioned product has been produced from milk which was derived from animals which were not under quarantine restrictions due to OIE List A diseases and was subject to ultra high temperature treatment at 145 degrees Celsius for 1 second, and does not contain any harmful</p>

	additives.
Optional endorsement available through EXDOC for UHT milk products and UHT cream products	<p>403 - DAIRY - Lesotho and Swaziland UHT - OIE List A, heat treatment 145 degrees Celsius for 1 second and radioactivity</p> <p>The goods described in this certificate have not been contaminated by radioactive elements from nuclear fallout. Analysis of representative samples of similar products has shown that the radioactivity level does not exceed 50 Bq/kg.</p> <p>The above-mentioned product has been produced from milk which was derived from animals which were not under quarantine restrictions due to OIE List A diseases and was subject to ultra high temperature treatment at 145 degrees Celsius for 1 second, and does not contain any harmful additives.</p>
Default endorsement available through EXDOC for all edible products except UHT milk products and UHT cream products	<p>352 - DAIRY - Lesotho and Swaziland OIE List A, pasteurised for 15 seconds/72 degrees Celsius, for 30 minutes/60 degrees Celsius</p> <p>The above mentioned product has been produced from milk which was derived from animals which were not under quarantine restrictions due to OIE List A diseases and was pasteurised for 15 seconds at 72 degrees Celsius, for 30 minutes at 60 degrees Celsius or equivalent, and does not contain any harmful additives.</p>
Optional endorsements available through EXDOC for all edible products except UHT milk products and UHT cream products	<p>353 - DAIRY - Lesotho and Swaziland OIE List A, heat sterilised for 30 minutes/60 degrees Celsius and pressure of 15 lbs (100 kPa)</p> <p>The above mentioned product has been produced from milk which was derived from animals which were not under quarantine restrictions due to OIE List A diseases and was heat sterilised for 30 minutes at 60 degrees Celsius and a pressure of 15 lbs (100 kPa), and does not contain any harmful additives.</p>
	<p>354 - DAIRY - Lesotho and Swaziland OIE List A and acidity of pH 4.7 or lower</p> <p>The above mentioned product has been produced from milk which was derived from animals which were not under quarantine restrictions due to OIE List A diseases and was brought to an acidity of pH 4.7 or lower through the process of manufacturing, and does not contain any harmful additives.</p>
	<p>355 - DAIRY - Lesotho and Swaziland OIE List A pasteurised for 15 secs at 72 degrees Celsius or for 30 minutes at 60 degrees Celsius.</p> <p>The above-mentioned product has been produced from milk, which was derived from animals, which were not under</p>

	<p>quarantine restrictions due to OIE List A diseases. The milk from which the product was derived was pasteurised for 15 seconds at 72 degrees Celsius or for 30 minutes at 60 degrees Celsius, and does not contain any harmful additives.</p>
	<p>404 - DAIRY - Lesotho and Swaziland disease, pasteurised for 15 secs/72 degrees or 30 mins/60 degrees and radioactivity</p> <p>The above mentioned product has been produced from milk which was derived from animals which were not under quarantine restrictions due to OIE List A diseases, was pasteurised for 15 seconds at 72 degrees Celsius or for 30 minutes at 60 degrees Celsius and does not contain any harmful additives.</p> <p>The goods described in this certificate have not been contaminated by radioactive elements from nuclear fallout. Analysis of representative samples of similar products has shown that the radioactivity level does not exceed 50 Bq/kg.</p>
	<p>405 - DAIRY - Lesotho and Swaziland disease, heat sterilised for 30 min/60 degrees, pressure of 15 lbs (100 kPa) and radioactivity</p> <p>The goods described in this certificate have not been contaminated by radioactive elements from nuclear fallout. Analysis of representative samples of similar products has shown that the radioactivity level does not exceed 50 Bq/kg.</p> <p>The above-mentioned product has been produced from milk which was derived from animals which were not under quarantine restrictions due to OIE List A diseases and was heat sterilised for 30 minutes at 60 degrees Celsius and a pressure of 15 lbs (100 kPa), and does not contain any harmful additives.</p>
	<p>406 - DAIRY - Swaziland and Lesotho OIE List A diseases and acidity of pH 4.7 or lower and radioactivity</p> <p>The above mentioned product has been produced from milk which was derived from animals which were not under quarantine restrictions due to OIE List A diseases, was brought to an acidity of pH 4.7 or lower through the process of manufacturing and does not contain any harmful additives.</p> <p>The goods described in this certificate have not been contaminated by radioactive elements from nuclear fallout. Analysis of representative samples of similar products has shown that the radioactivity level does not exceed 50 Bq/kg.</p>
<p>Additional Certificate Options available through EXDOC</p>	<p>ZX01 Dioxin certificate</p> <p>DS054 Animal Health Certificate for milk and milk based products (1), for transit (2) in the European Community – sea</p>
