

NEW ZEALAND

Date of issue	26 Feb 10
EXDOC country code	NZ
Additional Requirements and Information	<p>Edible and inedible dairy product exported to New Zealand is exempt from the requirements of the <i>Export Control Act 1982</i> (as per the Trans Tasman Mutual Recognition Arrangement) unless the product is to be re-exported to another country or is animal feed. Dairy product to be exported to another country and animal feed requires export certification and therefore needs to meet requirements of the <i>Export Control Act 1982</i>. When a health certificate is requested for New Zealand all requirements of the <i>Export Control Act 1982</i> are needed to be met (AQIS registration, export permit, quality assurance program etc).</p> <p>Auditing is required to verify the statements for inedible product regarding "... does not contain any form of animal protein other than dairy ingredients. The dairy ingredients originate from Australia." and regarding the heat treatment. Export registered establishments will be required to demonstrate that the inedible product does not contain any form of animal protein other than dairy ingredients, the dairy ingredients originate from Australia and the heat treatment statement is able to be substantiated.</p> <p>New Zealand authorities have advised of requirements for sea containers. Details are provided in Attachment 2.</p> <p>Department of Foreign Affairs and Trade notice regarding the agreement establishing the ASEAN-Australia-New Zealand Free Trade Area (AANZFTA). The notice (attached) includes Certificate of Origin requirements associated with the Agreement for AANZFTA. These certificates will be issued by Australian Chamber of Commerce and Industry (ACCI) and Australian Industry Group for the first 12 months.</p>
Establishment listing requirements	Not applicable
Exporter Declaration requirements <ul style="list-style-type: none"> • For exports of all prescribed edible product 	<p>Exporters must provide a declaration that all information in the permit is true and complete and that they are in possession of a declaration of compliance that:</p> <ul style="list-style-type: none"> (i) applies to the milk and milk products; and (ii) complies with the requirements of clause 6 of Schedule 9 of the Export Control (Milk and Milk Products) Orders 2005.
• Specific country requirements	Nil

Substantiation requirements	Declaration of Compliance Transfer documentation
Transit Certification Requirements	Milk and milk products transiting the European Union or the United States may require transit documentation. For product transiting the European Union via seafreight a DS054 certificate is provided and for product transiting the European Union via airfreight a DA054 certificate is provided. These certificates are available as additional certificates through the EXDOC system and are required to be signed by AQIS officers in a different colour ink to that of the printing of the certificate. If the product is transiting the United States standard certification is required and the exporter should contact the DRU for advice on how this certification may be issued.
